

BREEDING CONTRACT – 2026 SEASON

Duplexx – HOLST 276421000098816

S.E.H. – Stallions.Etalons.Hengste

Official Stallion Agent for Duplexx (France & Belgium)

BREEDER / MARE OWNER INFORMATION

Name of breeder / owner:

Address:

Delivery address and/or vet/stud (if different):

Name of the mare (as per passport):

UELN (Universal Equine Life Number):

SIRE number (France):

Stud Book you wish to register the foal:

1. GENERAL PROVISIONS

These conditions apply to the use of semen from the stallion Duplexx (HOLST 276421000098816) for the 2026 breeding season.

Any order placed with S.E.H., whether via the website or by means of this breeding certificate, implies full and complete acceptance of these

conditions. Any order not accompanied by such acceptance cannot be processed.

2. ORDER TERMS

Semen may be ordered via the official S.E.H. website or by means of this breeding certificate duly completed and signed.

All orders are subject to availability and acceptance by S.E.H.

3. DESIGNATION OF THE MARE AND REQUIRED DOCUMENTS

This contract applies to a single mare designated by name.

The following documents must be provided before any semen is dispatched:

Copy of the identification page of the passport

Copy of the UELN page

Copy of the owner page

SIRE number (mandatory for France)

Stud-book / breed registration

Any change of mare requires the prior written agreement of S.E.H. and the submission of the same documents for the new mare.

4. BREEDING RIGHTS

The stud fee entitles the designated mare to a maximum of three (3) inseminations during the 2026 breeding season only.

Unused inseminations are not transferable without prior written agreement from S.E.H.

This contract is valid for the 2026 breeding season only and confers no rights beyond this period unless agreed in writing by S.E.H.

5. STUD FEE AND PAYMENT TERMS

Stud fee (chilled semen):

€1,200 excl. VAT (+ applicable VAT)

Payment terms:

€340 excl. VAT (+ VAT) upon booking

€860 excl. VAT (+ VAT) payable on 1 October 2026, if the mare is confirmed in foal

Transport, handling, and health documentation costs are invoiced separately and must be paid prior to dispatch.

Payment must be received and cleared in full prior to dispatch. Proof of payment is not considered confirmation of receipt.

6. VETERINARY MONITORING AND NOTIFICATION

Due to high demand for the stallion Duplexx, prior notification is essential.

As soon as the veterinarian begins monitoring the mare and considers that she is approaching ovulation, the breeder or veterinarian must inform S.E.H. as soon as possible in order to allow optimal organisation of semen availability and delivery.

Any delay in notification may limit delivery possibilities. S.E.H. cannot be held responsible for consequences related to late notification.

7. ORDER TIMING AND AVAILABILITY

All semen orders for Duplexx are subject to availability at the stallion station in Germany.

S.E.H. works in close coordination with the stallion station and maintains a strong working relationship to facilitate timely collection and dispatch wherever possible.

S.E.H. must place orders with the stallion station no later than 09:00 (CET) on the day of collection.

Breeders, veterinarians, or insemination centres are required to notify S.E.H. as early as possible when semen is likely to be required.

Due to demand and logistical constraints at the stallion station, the number of collections and doses available per day may be limited. As such, availability of semen on any given day cannot be guaranteed.

S.E.H. shall not be held responsible for unavailability of semen or inability to fulfil an order where supply is limited or prioritised by the stallion station.

8. DELIVERY AND LIABILITY

No semen will be dispatched until all due amounts, including transport and documentation costs, have been paid.

Belgium: weekend deliveries may sometimes be possible depending on carriers.

France: weekend deliveries depend on location and cannot be guaranteed.

Transport costs are non-refundable and charged per shipment.

Responsibility for the semen transfers to the recipient upon dispatch.

S.E.H. cannot be held responsible for transport delays or any veterinary or additional costs arising from them.

9. USE OF SEMEN

The semen supplied is strictly for chilled insemination on the mare designated in this contract.

Under no circumstances may the semen be used for another mare or for any alternative reproductive technique without prior written consent from S.E.H.

10. PREGNANCY CONFIRMATION AND FURTHER SHIPMENTS

No subsequent shipment of semen will be authorised unless the reproductive status of the mare has been clearly established.

Prior to any additional shipment, the breeder must provide either:

a veterinary certificate, or

written confirmation by email from the attending veterinarian or authorised insemination centre

stating that the mare is not in foal.

This confirmation must be received and validated by S.E.H. before any further semen is dispatched.

In the absence of such confirmation, S.E.H. reserves the right to refuse shipment without liability.

11. PREGNANCY CONFIRMATION AND PAYMENT OBLIGATION

If the mare is not confirmed in foal by 1 September 2026, the breeder must provide a veterinary certificate confirming non-pregnancy.

As the stud fee is payable in two instalments, the provision of this certificate is necessary to officially establish the reproductive status of the mare.

In the absence of a veterinary certificate confirming non-pregnancy, the full stud fee may become payable, including the second instalment, regardless of the mare's actual pregnancy status.

This provision is independent of any request for mare change or deferral, which remain entirely at the discretion of S.E.H. and are examined on a case-by-case basis.

12. CHANGE OF MARE OR DEFERRAL

A change of mare or a deferral to the following season may be considered on a case-by-case basis, particularly where a mare has been inseminated and circumstances beyond the breeder's control arise.

This possibility is subject to:

clear and prior communication with S.E.H.

submission of all required documents

provision of a veterinary certificate where applicable

No change or deferral is valid without written confirmation from S.E.H.

13. LIMITATION OF LIABILITY

S.E.H. provides no guarantee regarding fertility, conception, pregnancy, or live foal.

14. GOVERNING LAW AND JURISDICTION

This contract is governed by French law.

Any dispute shall fall under the jurisdiction of the competent courts of Le Mans.

15. ACCEPTANCE

I acknowledge that I have read these conditions and accept them without reservation.
